There are a number of withdrawals. Many more proposed and sizeable. SRBC has extensive information. I will gather specifics. And yes, that is useful for supporting the bill.

Regards, Jim

I will check. I am at the SRBC meeting in Corning now -- they may have info as well. No NY water withdrawal control authority yet. Disposal would be regulated. Any specific allegations?

Regards, Jim

At the binghamton hearings a number of people said pa drillers are taking ny fresh water and also bring flow back frack fluid into ny.

Do u have data on that? Dr bob palse, Epa researcher is meeting with

brad field tomorrow. Jim, u may want to also attend
